

## Subscriptions, Newsletters, & Listservs

Searching for grant opportunities can be overwhelming. A good place to start is finding funders and organizations who offer regular updates about funding opportunities when you sign up for their e-mail communications lists. Often these e-mail services are free and easy to join. Importantly, you can find subscription lists by topic or geography to help your organization select the subscription lists that are a best fit.

To help you get started, below is a compiled resource list of subscriptions, e-newsletters, listservs, podcasts, updates, and alerts for the nonprofit sector, all free unless otherwise noted, and are arranged in categories.

Please note Methodist Healthcare Ministries does not personally endorse nor receive a commission for sharing these subscription lists. Links for each resource will take you to external websites.
