

# Patient PORTAL

## OVERVIEW

Patient Portal is an easy and convenient way for patients and clients to better manage their health journey.

We want to give our patients the ability to better understand their health and to know how they can take action to improve their care.

## FEATURES

View your current medical records, including the results of labs and tests that your provider has ordered.

Schedule visits with your providers to talk about your health care.

Do you have questions for you doctors or providers? Send them a message directly and receive an answer within 24 hours.
