

eVISIT[®]

OVERVIEW

eVisit is a platform that allows patients and clients to connect with their providers virtually.

There may be a variety of barriers patients and clients face in receiving in-person care. eVisit will play an important role in ensuring Methodist Healthcare Ministries offers the best possible care to overcome those barriers.

eVisit will allow patients and clients to safely and privately talk with their provider about their health care in a convenient and virtual environment.

In using eVisit, patients and clients will save time on driving to and from appointments, while maximizing time spent with their providers.

HOW TO ACCESS

Visit www.app.evisit.com and log in to your account.
